

by “The Zombies”. The album artwork created by Terry Quirk, an artist, a friend and neighbor of Chris White (vocalist). He made a misprint in the title (“Odessey” instead of the correct “Odyssey”), which the musicians did not immediately noticed, and after noticing decided not to correct.

Answering the question what Odessey is and who Oracle is, Rod Argent (keyboardist and songwriter) said: “It’s just a phrase from coined. The idea of odyssey is that of a journey and discovery, but I’m not quite sure what we meant by “oracle”.

Having analyzed a sample of 500 names of albums, one can single out the relevance of the topic because of its close connection with the problems of the nomination, which can reveal the linguistic features in the lyrics and in the albums names of rock bands, as well as provide additional information about the preferences, interests, problems worrying musicians.

Research topic is relevant because of its close connection with the problems of the nomination, which allows to trace the linguistic features in the album names of British and American rock bands, as well as learn more about the cultural values and ideals of the English-speaking countries.

THE HISTIRY OF DEVELOPMENT OF UNIFORMS AS THE POSSIBILITY OF MAKING THE CONCEPT OF «SCHOOL UNIFORM» IN BELARUSIAN GUMNASIUM

The problem of a school uniform is discussed in every school. That’s why we’ve looked through many information sources such as books, newspapers and magazines, the Internet, interrogated my friends, schoolmates, teachers and grown-ups and found out, that there is nobody indifferent to the problem.

So the aim of our research work is to draw attention of students to the problem of school uniform, worth appearance, to find out opinion of parents, teacher and pupils on wearing of school uniform to develop practical recommendation for students Gymnasium №7.

The tasks are: to find out the meaning of the word school uniform, to trace the development of school uniform from Ancient times, to show the history development of school uniform in Belarus, to design some elements of school uniform for students of Gymnasium №7.

The problem of the school uniform is still unsolved in our country. Most of the Belarusians (64%) think that it is necessary to wear a special form of clothes at school, the others (31 %) are against of having it, 5% couldn't answer the question.

What must a school uniform be like? After analyzing all pros and cons we decided to offer the students from the 5th to the 10th form to design school uniforms for secondary school students. This will help to preserve the individuality within the gymnasium, take into account the tastes of students and influence of modern fashion.

We carried out the examinations of pluses and minuses of a school uniform. That's why it was decided to design the emblem which would reflect the individuality of our gymnasium. We've decided that the emblem should reflect the main aspects that are developed by the teachers of our gymnasium to help the students to find and show their talents and abilities. Our gymnasium pays a lot of attention to mental, physical and artistic development. Everything is depicted in our emblem.

Easel and a brush as a symbol of art shows how talented our students are and the uniqueness of different works of art created by our pupils.

Dancing pair is a symbol of self expression that is developed at our dancing lessons.

Olympic rings show the achievements of our student in volleyball, skiing, track-and-field events and what is more.

And of course a book is considered to be a symbol of good education.

As a result of hard work of our students and teachers you can see a gold medal on the book. Due to diligence of our students and of course well-qualified teachers we show excellent results in different spheres of studying.

School uniform helps students have higher opinions of themselves, giving them the confidence to perform better. And probably, you will agree with us – A SCHOOL UNIFORM IS THE FACE OF A SCHOOL AND REFLECTS ITS INDIVIDUALITY.
